

Nicholas Gurney

A professional product manager with a desire to make real change. Learn more about why I love being a PM here: <http://bit.ly/2Cu5o97>

EXPERIENCE

Red Cone Development — *Product Manager*

August 2018 - PRESENT

Implemented Agile practices to build 7 separate products across web, mobile, and desktop applications. Led an 18 month project to move flagship product from the desktop to the web.

Red Cone Development — *Senior Account Executive*

May 2017 - July 2018

Helped launch and sell an in-house marketing tool and custom software development solutions. Worked regularly with high-level executives on 5 and 6 figure projects.

Rain Retail — *Customer Success Manager*

May 2016 - May 2017

Asked to create the first customer success position in a company of 40 employees and 3000 customers. Handled the entire book of customers myself and was asked to build a team under me.

EDUCATION

Utah Valley University — *Technology Management*

Emphasis in Information Systems & Technology

August 2015 - December 2019

Learning in academia while building my professional portfolio. My goal is to be the most qualified and experienced Product Manager possible.

Project Management Institute — *CAPM*

Certified Associate in Project Management - CAPM Number: 2212090

January 2018 - March 2018

Learned agile principles and project management fundamentals through the most accredited project management organization in the world.

Various Educators — *Web Development Fundamentals*

HTML | CSS | JavaScript | PHP | Web Design | WordPress

June 2016 - January 2017

After finding my passion for technology, I spent the last 2.5 years learning the basics of web development in my free time.
